

LADDERS AND SAFETY GAGES

SAFE AND EASY ACCESS

GULF GLASS FIBRE ladders and safety cages are used in chemical plants and corrosive environments. They are also used in villas, apartments and public buildings complementing to the aesthetics of the building. Even in complete immersion applications, GRP has outlasted aluminium and steel requiring little or no maintenance.

- ▶ General Industry
- ▶ Marine / Offshore
- ▶ Wet wells
- ▶ Plating operations
- ▶ Mining / processing
- ▶ Petrochemicals plants
- ▶ Transportation
- ▶ Water / Waste water
- ▶ Pulp & paper plants
- ▶ Tanks / Tank Farm
- ▶ Chemical Plants

- ▶ Corrosion resistance
- ▶ Light weight
- ▶ High strength
- ▶ Non conductive & Non magnetic
- ▶ Thermally inert
- ▶ Low maintenance
- ▶ Fire retardant
- ▶ Impervious to bacterial growth
- ▶ For use in all climates and exposure to sunlight
- ▶ Long life
- ▶ Easy installation
- ▶ Pleasing appearance
- ▶ Non toxic
